

Name _____ Class _____ Date _____

1

- a** What B is a fuel made from animal droppings?

- b** What R is a resource that will not run out?

- c** What U is a metal that stores nuclear energy?

- d** What WT is used to generate electricity from the wind?

- e** What HP generates electricity from flowing water?

- f** What SC make electricity using energy from the Sun?

- g** What SP use energy from the Sun to heat water?

- h** What GP is an energy resource from hot rocks?

2 Tick the renewable energy resources in the list below.

☐

biomass

☐

coal

☐

hydroelectric power

☐

oil

☐

natural gas

☐

solar power

☐

tidal

☐

wind

☐

wood

I CAN...

- give examples of non-renewable and renewable energy resources.
